

## Other Authors Published by GGBP

This list should now be completely up to date; the list (in three parts) includes all titles GGBP have published to date, as well as those we published before 2002 under different imprints (names).

**This list includes authors previously published by GGBP. We have no current plans to publish further books by these authors.**

(FIF) after a title = Fun in the Fourth, which was a series we did for a short while of school stories by various authors, where we were not intending to publish the complete works by an author.
